SITUATION SUMMARY

California Department of Public Health Zika Virus and Meningococcal Disease Update

The Medical and Health Coordination Center (MHCC) continues to be activated in response to the Zika Virus Disease 2016 and the Southern California Meningococcal Disease Outbreak 2016. The California Department of Public Health (CDPH) and Emergency Medical Services Authority (EMSA) are currently the only Emergency Function 08 (EF 08) partners at the state level reporting on these activations.

- The MHCC is coordinating with EF 08 partners, healthcare facilities and local health departments (LHDs) to ensure responses are timely and accurate.
- CDPH and EMSA Duty Officer Programs are monitoring the Zika virus and meningococcal disease outbreak after hours and remain in communication with the Regional Disaster Medical and Health Coordination (RDMHC) Programs and the Medical Health Operational Area Coordinator (MHOAC) Programs throughout California.

Zika Virus

- As of September 23, 2016, there have been 302 travel-associated Zika virus infections in California.
- This number is an increase from 282 cases reported in the last operational period.
- CDPH centers and programs continue to monitor Zika virus disease and provide information to the MHCC related to their specific activities on a weekly basis.

Meningococcal Disease

- Since March 2016, 27 cases of meningococcal disease, including two fatal cases, have occurred among residents or visitors to Los Angeles County, Orange County, Ventura County and the City of Long Beach.
- Of the 27 cases, 25 are men and of these, 21 identified as men who have sex with men (MSM).
- Of the 26 cases with known serogroup, all have been identified as serogroup C disease.
- Please see attached for full report.

2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- The El Cajon Armory shelter counts reported on 09/29/16 as:
 - National City Armory – all persons were transferred to the El Cajon Armory on 09/28/16.
 - El Cajon Armory – 72 persons (-8)
 - Christ Ministry Center – All entrants (with the exception of pregnant women and their families) were transferred to the El Cajon Armory.
 - Best Western Hotel San Diego – 15 (pregnant women and their families)

Non Governmental Organizations

- The Alliance San Diego and Christ Ministry Center continue to coordinate shelter activities at the El Cajon armory.
- As of 1200 on 09/30/16, the church will start transferring the women and families back to the Christ Ministry Center from the Best Western Hotel (only 24 at a time).
- Catholic Charities are exploring a transitional housing possibility for the single adult population residing at the armory as of 10/02/16. This housing will only be available to those who have been enrolled in the federally-funded programs operated by Catholic Charities Diocese of San Diego (CCDSD).
- The American Red Cross (ARC) is continues to provide technical and material support.
- ARC is picking up the materials at the National City Armory on 09/29/16 at 1300.

State agencies currently supporting the sheltering operations are as follows:

- California Department of Social Services (CDSS):
 - Continues to monitor the situation.
- Cal Volunteers:
 - All ten (10) AmeriCorps Disaster team members are now at El Cajon shelter until 10/03/16.
 - CV is planning to demobilize from this operation on the evening of 10/03/16, after the El Cajon shelter has been cleaned and closed down.
- California Department of Public Health (CDPH):
 - CDPH ORH contacted the County on the Zika testing for the pregnant women. CDPH is awaiting information from the County.
- California Department of Food and Agriculture (CDFA):
 - Continues to monitor the situation.
- California National Guard (CNG):
 - Per CNG, the plan is to demobilize both armories on 10/04/16 at 0800.
- San Diego County
 - Public Health Staff and Eligibility workers continue to visit the El Cajon armory Monday, Wednesday and Friday's from 0800-1200.
 - Public Health Staff visited the Best Western Hotel in San Diego to do health check on the women and children.

WEATHER OF CONCERN

Weather of Concern

- Significant cooling trend will continue into the weekend as cold low pressure from the Gulf of Alaska approaches and moves through. Below normal temperatures expected by Friday with additional cooling of 15 to 25 degrees below normal by Sunday. Showers possible over much of Interior Northern California Sunday into Monday with isolated thunderstorms possible.
- A Fire Weather Watch has been issued for the Tahoe Basin for Friday. Widespread winds of up to 40 mph are expected during the day on Friday with some areas potentially remaining gusty through the night on Friday.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

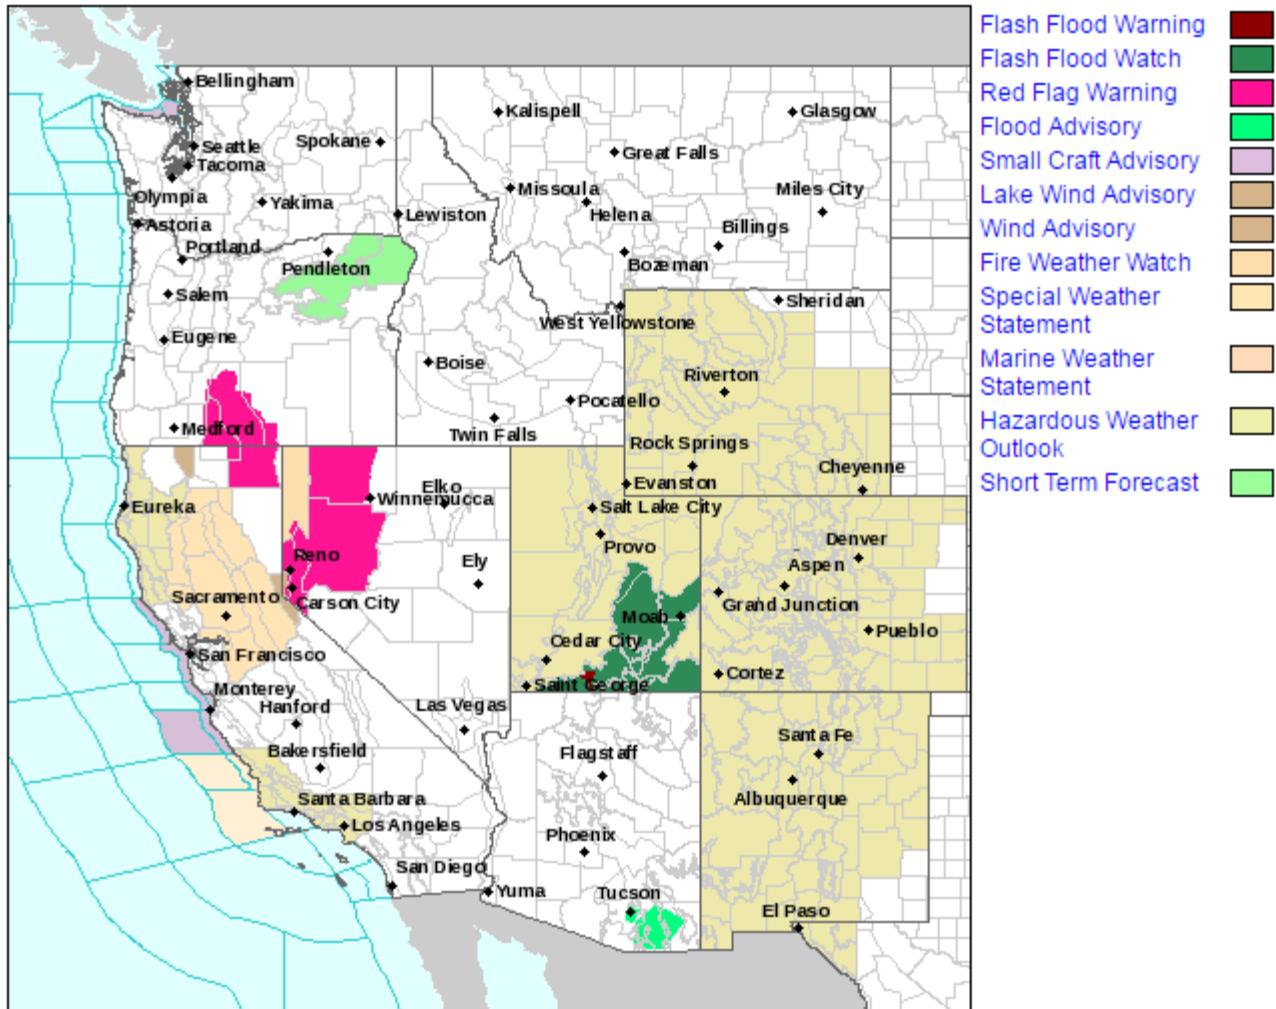

NORTHERN CALIFORNIA

A low pressure trough is deepening offshore. This trough will be the dominant weather feature through early next week. Afternoon temperatures will be near normal today, and southwest winds will increase today, especially over the higher terrain and east of the Cascade-Sierra crest where gusts may reach 30 mph. As the trough strengthens offshore on Friday southwest winds will continue to increase. Southwesterly gusts along and east of the Cascade-Sierra crest will reach 40 mph and locally higher Friday, and 30 mph on Saturday. Humidity will be 15-30% there each afternoon. Friday is considered the only High Risk day due to the stronger winds. There is a slight chance of light rain showers in far northwest California Friday night through early Sunday. More widespread light to briefly moderate precipitation is possible over mid and upper elevations across the entire region late Sunday and Monday, with lower elevations receiving scattered light amounts even as far south as the Bay Area. Far Northwest California may see 1-1.5 inches of rainfall from this system. Lower elevations in the south may only see a trace to 0.10 inches of rainfall. Snow levels could drop as low as 5000 feet in the north and 6000 feet in the south late Sunday and Monday. Spotty light rain showers will likely continue on Tuesday. Temperatures will be 8-12 degrees below normal Friday through Tuesday. High pressure will return Wednesday and Thursday and produce drier and warmer weather.

SOUTHERN CALIFORNIA

Lingering subtropical moisture will generate isolated showers and thunderstorms again today. Yesterday, over 200 lightning strikes were recorded with scattered bands of wetting rain occurring in northern Ventura County, Eastern Kern County and the San Bernardino National Forest. Rainfall in these areas, in general, was 0.25 – 0.50” with the heaviest totals occurring in the southern San Bernardino National Forest into the Banning Pass. Today's thunderstorm activity will be much less widespread with most of the precipitation expected to remain in the Sierras and the eastern San Bernardino and Cleveland National Forests. High temperatures today will be 3-5 degrees cooler with afternoon temperatures ranging from the 70s at the coast to the lower 90s in the valleys. Winds will remain light. An approaching trough should push the moisture east of the area Friday and no further thunderstorm activity is expected. This trough will bring an increase in onshore flow over the weekend, leading to breezy conditions in a few areas. Expect afternoon winds of 15-25 mph Friday along the central coast in and near the Antelope Valley. This weekend, onshore flow will bring much cooler and more humid weather to the region. Expect highs to only reach the 70s to lower 80s in the valleys Saturday and Sunday with most areas seeing relative humidity (RH) minimums remaining above 20%. West afternoon winds of 20-30 mph can be expected in and near the Kern County Mountains, north Los Angeles County and the Banning Pass during the weekend. Additionally, expect northwest winds of 20-30 mph each afternoon along the central coast. This trough is expected to push into Northern California Sunday into Monday, leading to a chance for light precipitation in the Sierras, mainly from Fresno County northward. Scattered showers will be possible in the desert next Tuesday. The system will continue to push into the Rockies, which may lead to offshore winds next Wednesday or Thursday. Wind speeds are not expected to be strong during this offshore event. Temperatures will remain a few degrees below normal through next Tuesday before warmer weather returns for the second half of next week.
